LEVEL 1

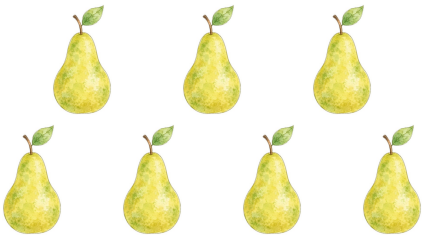

Counting

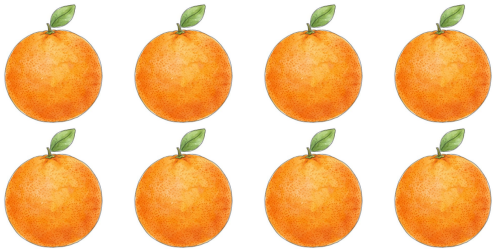

Count each kind of fruit. Write the number in the box below it.

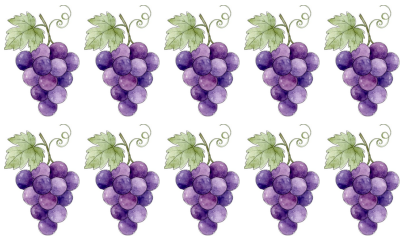

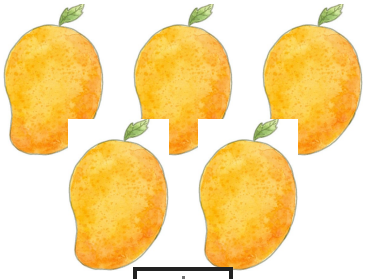

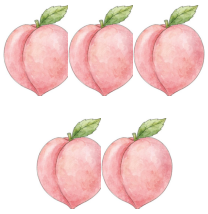

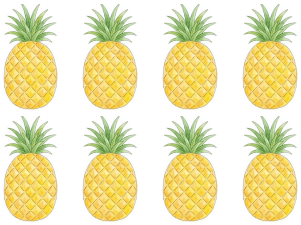

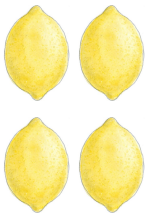

LEVEL 2

Match It

How many of each fruit are there? Draw a line to the matching number.

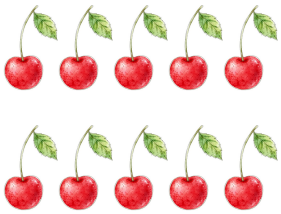

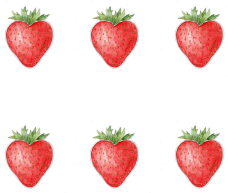

8

4

5

7

6

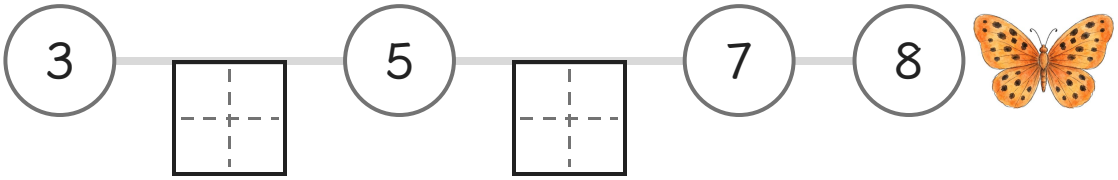

10

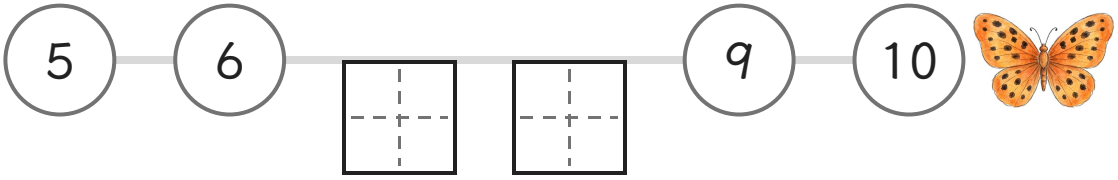

LEVEL 3

Keep Counting

Keep counting. Write the missing numbers in the boxes.

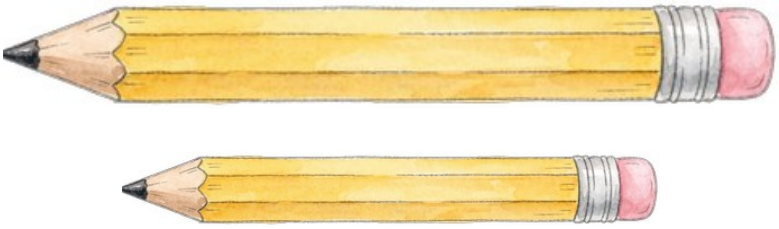

LEVEL 4

Longer One

Which pencil is longer? Color the circle next to it.

LEVEL 5

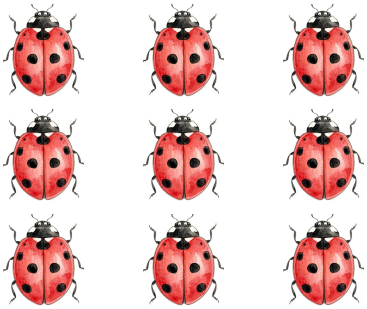

Which Has More

Which side has more? Color the circle on that side.

(1)

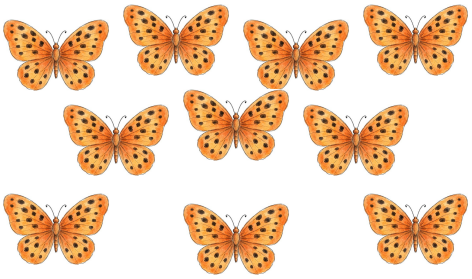

○

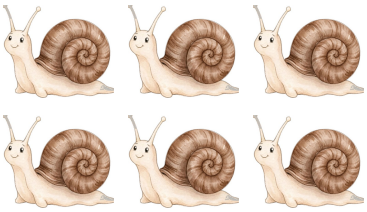

○

(2)

○

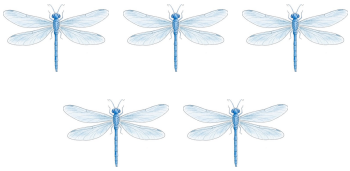

○

(3)

○

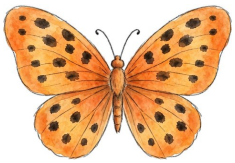

○

LEVEL 6

Positions

Look at the picture. Circle the animal that matches.

(1) Circle the animal at the very top.

(2) Circle the animal at the very bottom.

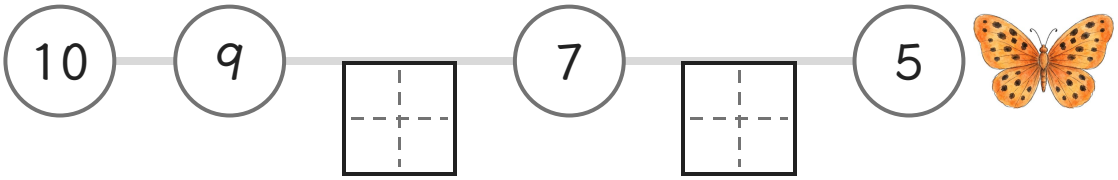

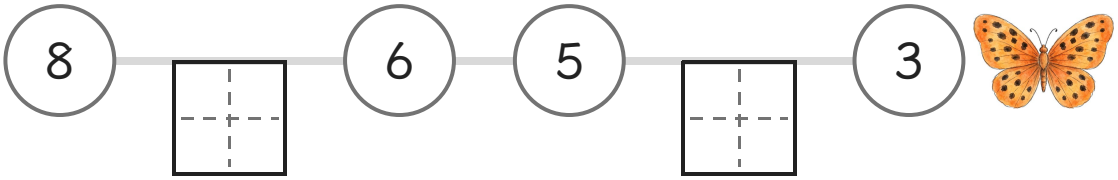

(3) Circle the animal below the monkey.

LEVEL 7

Count Back

Count backward. Write the missing numbers in the boxes.

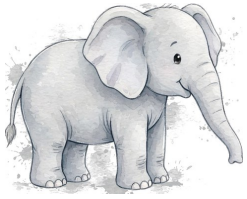

LEVEL 8

More Pears

Who has more pears? Circle that animal.

(1)

(2)

(3)

LEVEL 9

How Many More

Who has more candies? How many more? Circle the extra candies.

(1)

(2)

(3)

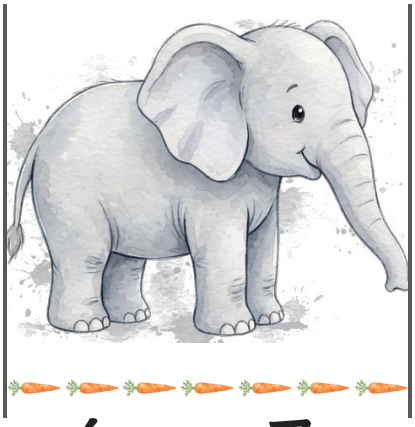

LEVEL 10

Measure It

Look carefully at the picture. Circle the correct number.

(1) The elephant is as long as how many carrots? Circle the number.

6 7 8

(2) The snail is as long as how many carrots? Circle the number.

4 5 6

(3) The dog is as long as how many carrots? Circle the number.

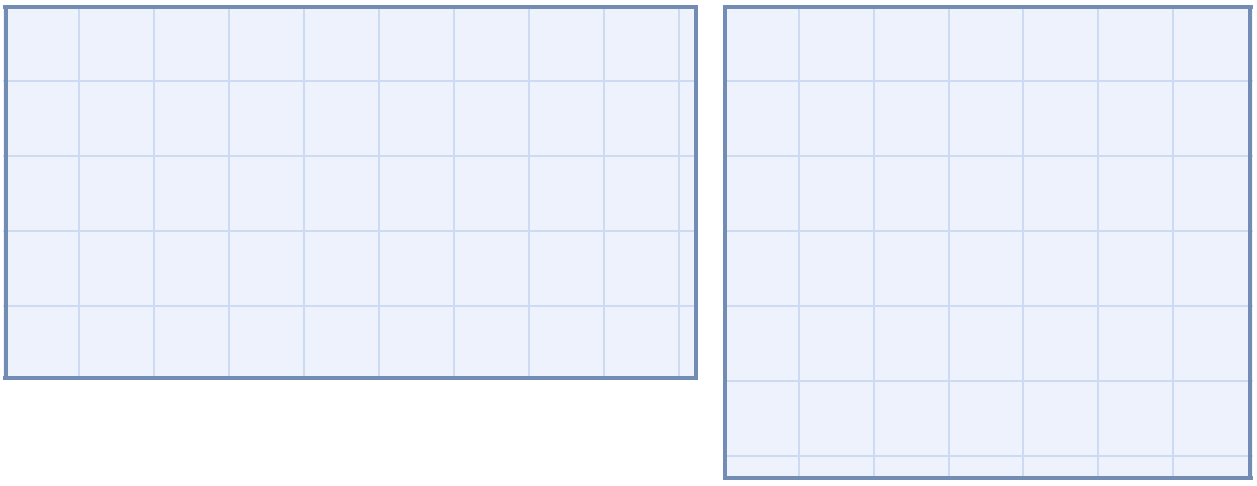

3 4 5

LEVEL 11

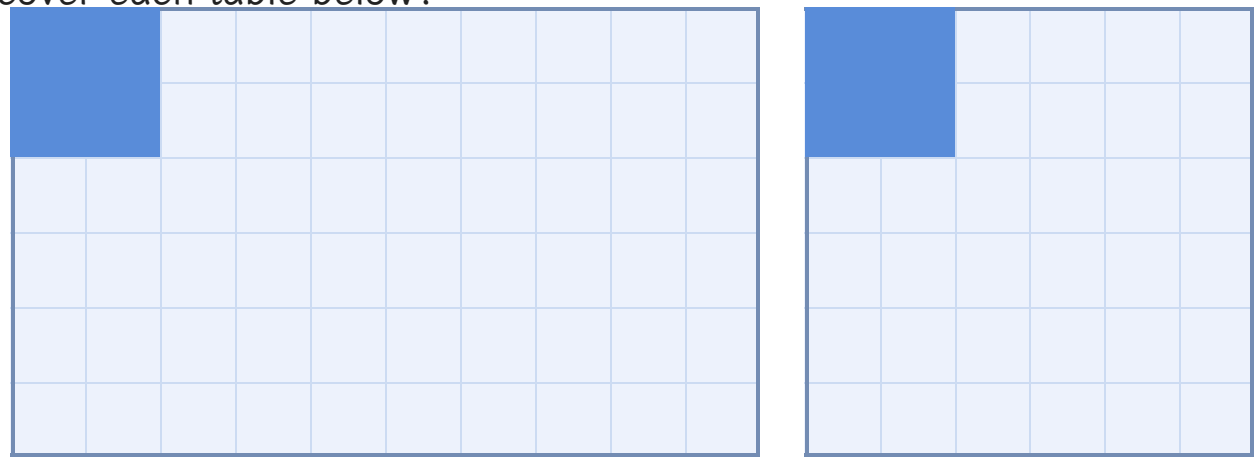

Which Is Bigger

Look carefully and think it over.

(1) Guess which table is bigger. Color the circle next to it.

(2) How many blue square handkerchiefs does it take to cover each table below?

(3) A table is 5 handkerchiefs long and 3 wide.
How many handkerchiefs cover it? Circle the number.

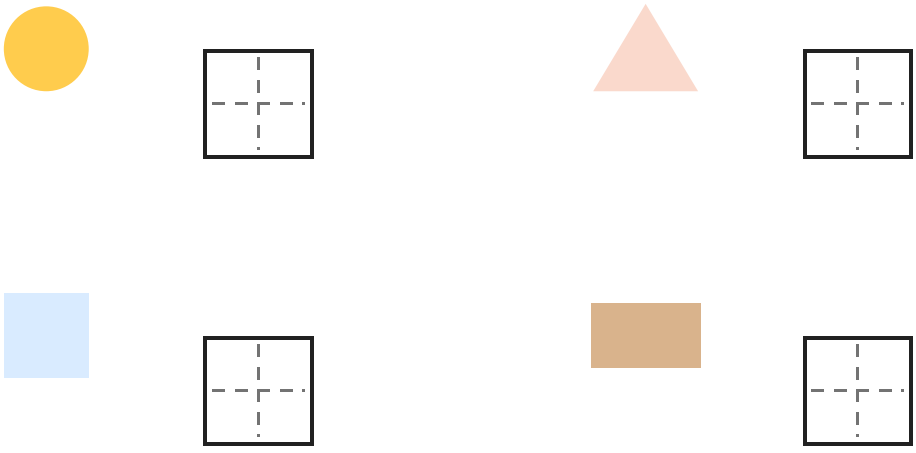

12 15 18

LEVEL 12

Count Shapes

Count each kind of shape. Write the number in the box below it.

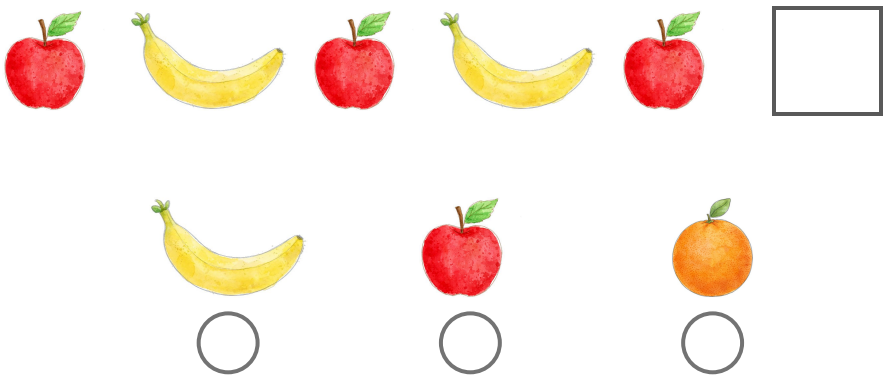

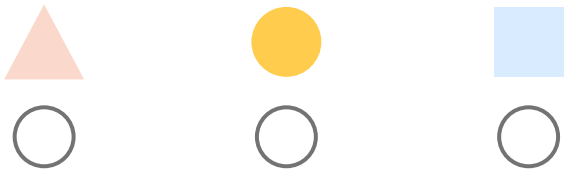

LEVEL 13

Patterns

Find the pattern. Fill in the missing shapes and numbers.

2 4 6 10

1 3 5 9

LEVEL 14

More Than

Work out each problem. Circle the correct number.

(1) Bunny picked 5 peaches. Bear picked 3 more than Bunny.
How many peaches did Bear pick?

? 7 8 9

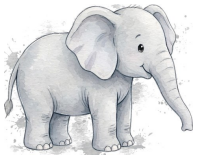

(2) Kitty has 4 candies. Puppy has 3 more than Kitty.
How many candies does Puppy have?

? 6 7 8

(3) Elephant has 7 balloons. Panda has 2 more than Elephant.
How many balloons does Panda have?

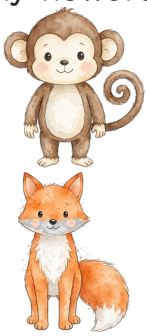

? 8 9 10

LEVEL 15

Fewer Than

Work out each problem. Circle the correct number.

(1) Monkey planted 7 flowers. Fox planted 2 fewer than Monkey.
How many flowers did Fox plant?

?

4 5 6

(2) Lion has 9 candies. Tiger has 3 fewer than Lion.
How many candies does Tiger have?

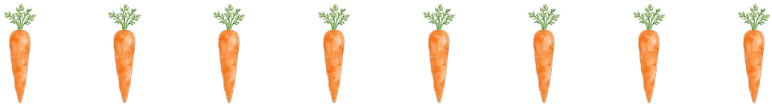

?

5 6 7

(3) Bunny grew 8 carrots. Bear grew 5 fewer than Bunny.
How many carrots did Bear grow?

?

2 3 4

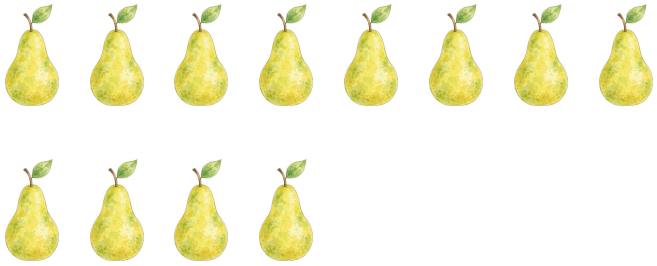

LEVEL 16

Make It Equal

Work out each problem. Circle the correct number.

(1) Elephant has 8 pears and Giraffe has 4.
How many should Elephant give Giraffe to make them equal?

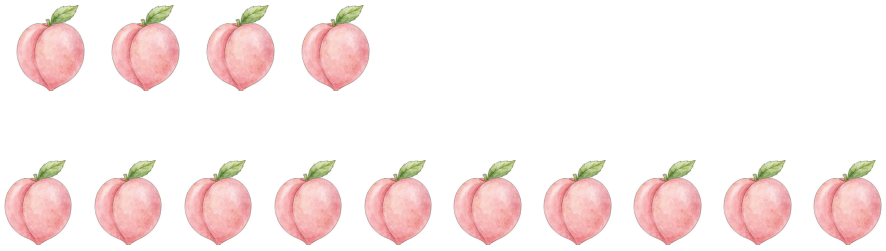

1 2 3

(2) Panda has 4 peaches and Monkey has 10.
How many should Monkey give Panda to make them equal?

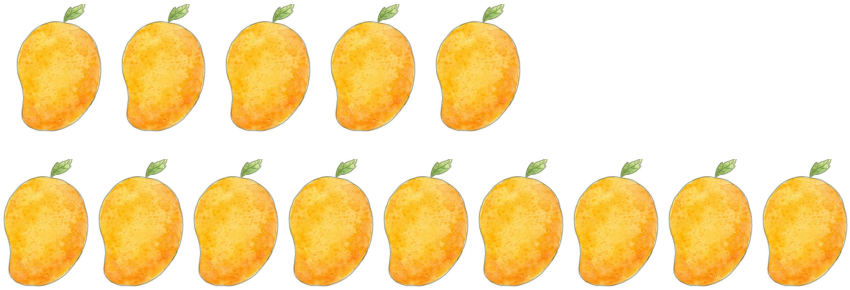

2 3 4

(3) Fox has 5 mangoes and Lion has 9.
How many should Lion give Fox to make them equal?

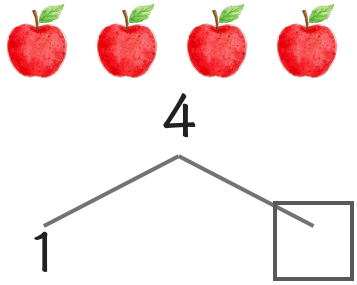

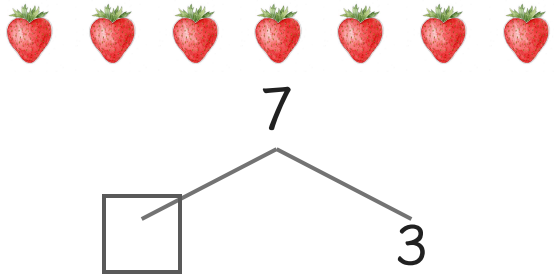

1 2 3

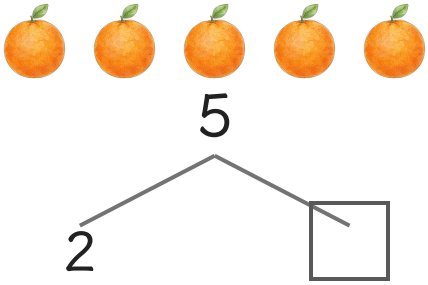

LEVEL 17

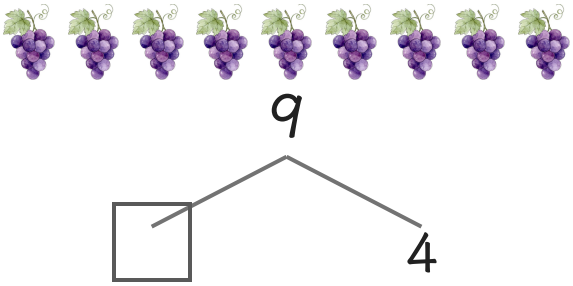

Number Bonds

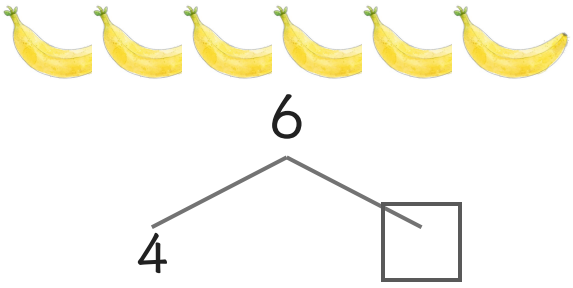

Look at each number bond. Write the missing number in the box.

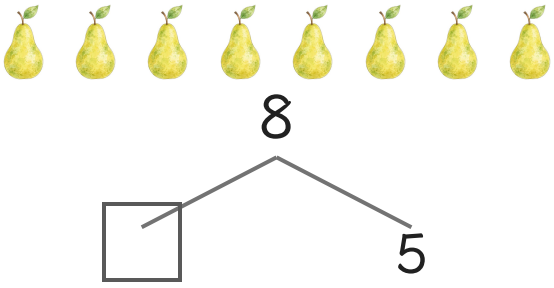

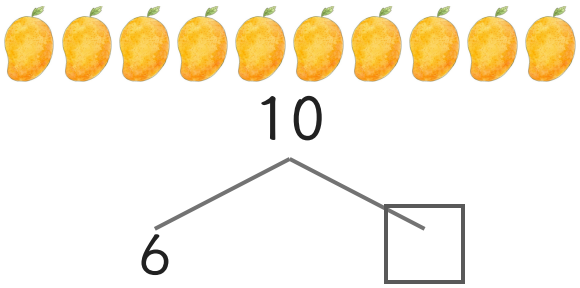

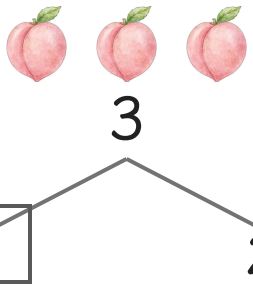

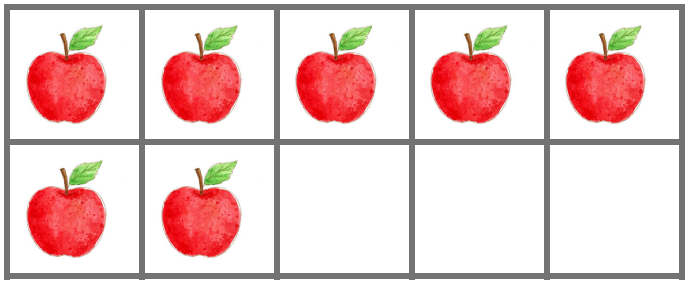

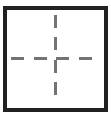

LEVEL 18

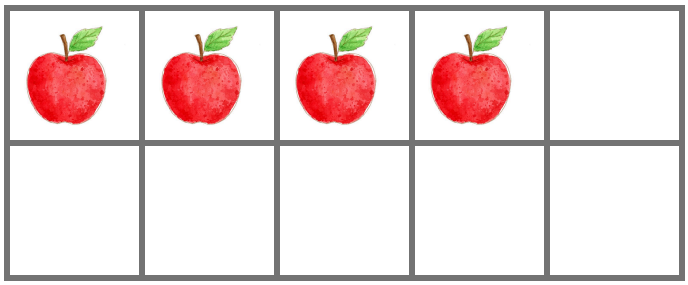

Make 10

Count the apples. How many more make 10? Write the number in the box.

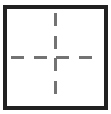

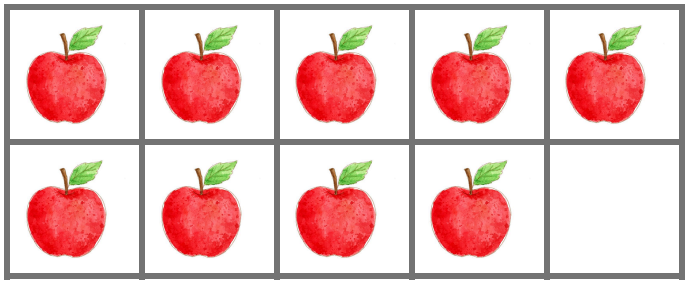

How many more to make 10?

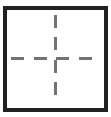

How many more to make 10?

How many more to make 10?

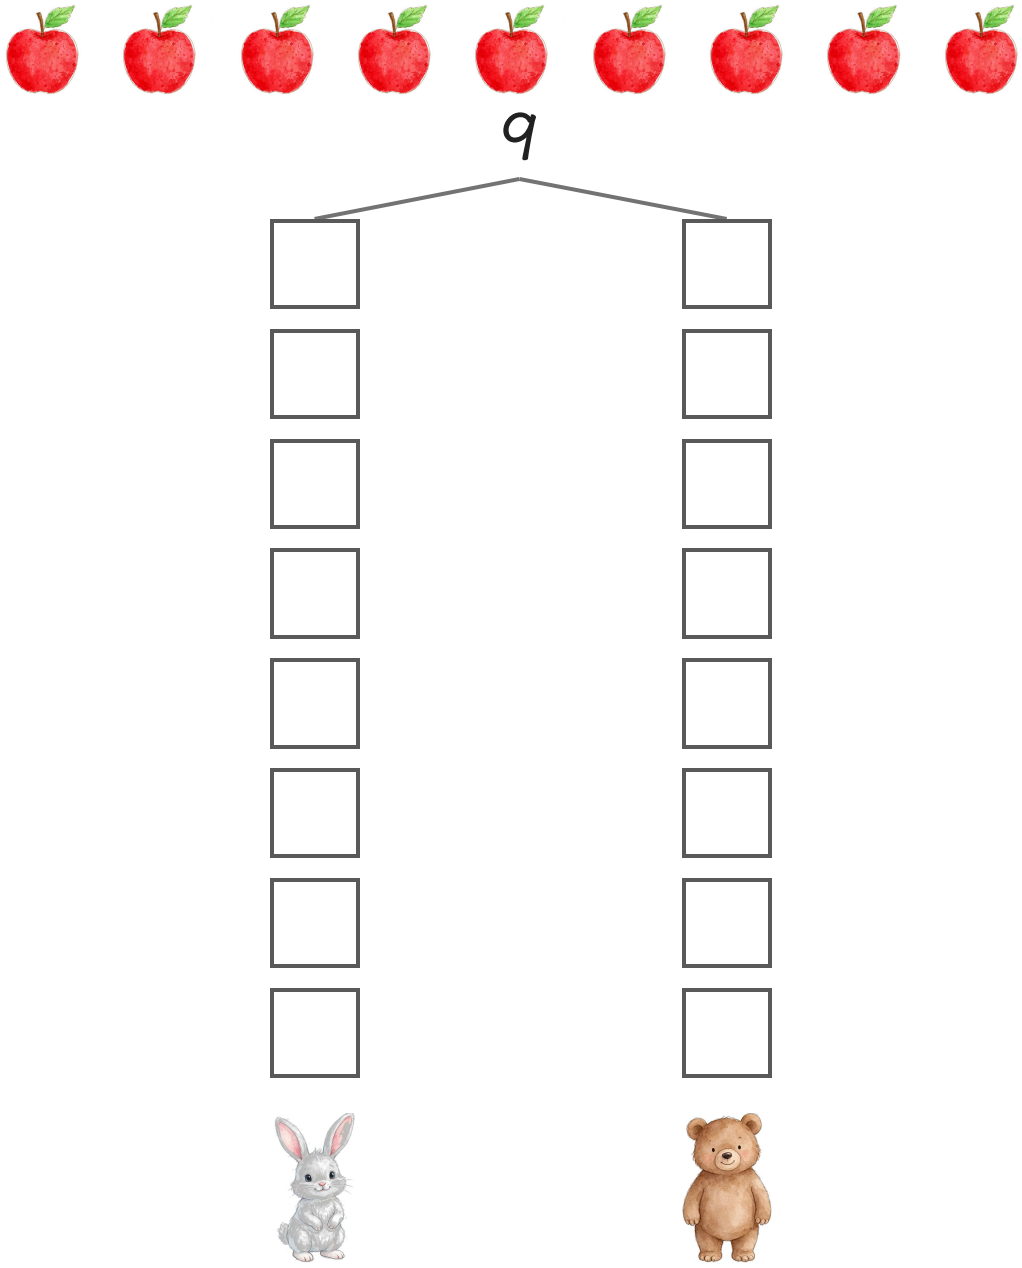

LEVEL 19

Share 9 Apples

Share them in order, every way you can. Write the numbers as you go.

9 apples are shared by Bunny and Bear. Both must get some.

How many ways can they share them?

LEVEL 20

Share 10 Peaches

Share them in order, every way you can. Write the numbers as you go.

10 peaches are shared by Monkey and Panda. Both must get some.

How many ways can they share them?

10

LEVEL 21

Addition

Look at the picture and write the number sentence. Fill in the boxes.

(1) 4 apples on the left and 2 pears on the right.

How many pieces of fruit are there in all?

□ + □ = □

(2) 5 balloons on the left and 2 on the right.

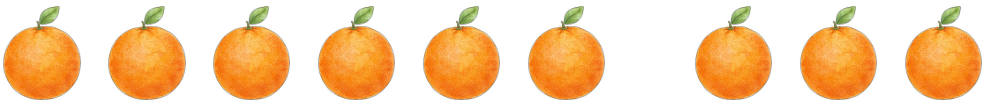

How many balloons are there in all?

□ + □ = □

(3) 6 oranges on the left and 3 on the right.

How many oranges are there in all?

□ + □ = □

LEVEL 22

Subtraction

Look at the picture and write the number sentence. Fill in the boxes.

(1) A vase holds 8 flowers. 3 are given to a friend.
How many flowers are left?

□ - □ = □

(2) A tree has 9 peaches. 5 are picked. How many are left?

□ - □ = □

(3) You are holding 10 balloons. 4 fly away. How many are left?

□ - □ = □

LEVEL 23

Add 3 Numbers

Look at the picture and write the number sentence. Fill in the boxes.

(1) 2 butterflies on the left, 3 in the middle, 2 on the right.
How many butterflies are there in all?

□ + □ + □ = □

(2) Three trees have 3, 2, and 4 apples. How many apples in all?

□ + □ + □ = □

(3) Kitty has 4 balloons, Puppy has 3, and Bunny has 3.
How many balloons are there in all?

□ + □ + □ = □

LEVEL 24

Add & Subtract

Look at the picture and write the number sentence. Fill in the boxes.

(1) 5 butterflies are in the flowers. 3 more fly in, then 2 fly away.
How many are left?

□ + □ - □ = □

(2) A plate has 9 peaches. 4 are taken away, then 2 are put back.
How many peaches are there now?

□ - □ + □ = □

(3) Kitty has 6 candies. Mom gives her 3 more, and she eats 4.
How many candies are left?

□ + □ - □ = □

LEVEL 25

Share Equally

Share the food equally between the two animals. Draw lines to share.

(1) Bunny and Bear share the strawberries. How many does each get?

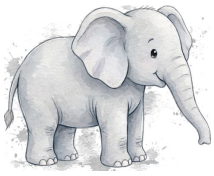

(2) Kitty and Puppy share the candies. How many does each get?

(3) Elephant and Panda share the bananas. How many does each get?

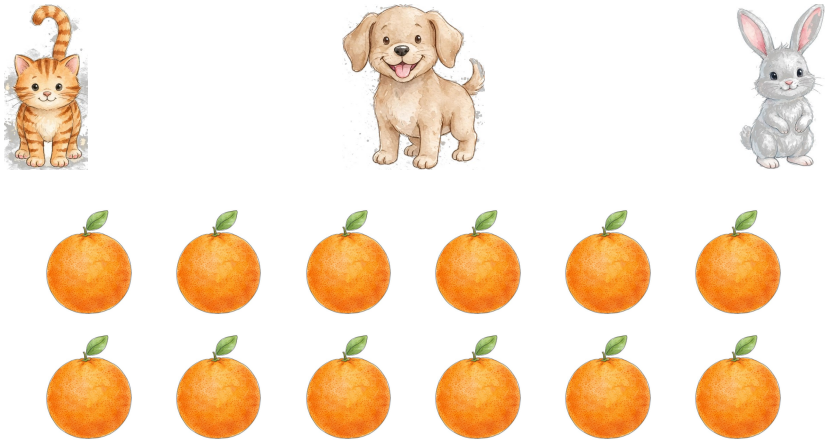

LEVEL 26

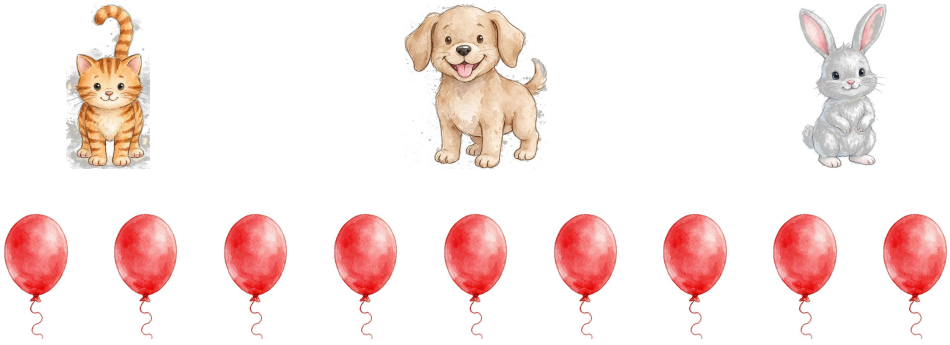

Share with 3

3 friends share equally. How many each? Draw lines to share.

(1) 3 friends share the oranges equally. How many does each get?

(2) 3 friends share the balloons equally. How many does each get?

LEVEL 27

Share Bananas

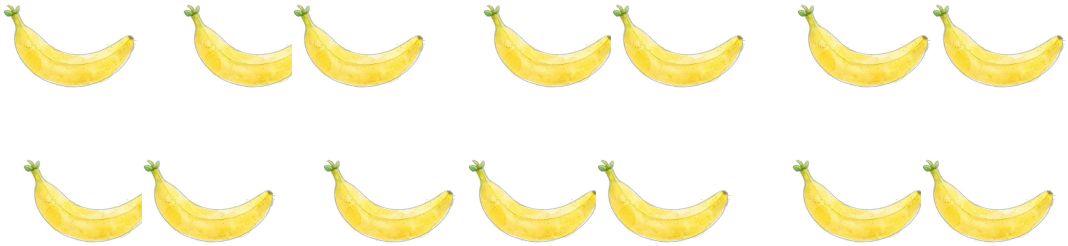

Share equally. How many does each one get? Draw lines to share.

2 monkeys share the bananas. Each monkey gets the same number.

How many bananas does each monkey get? Draw lines to share.

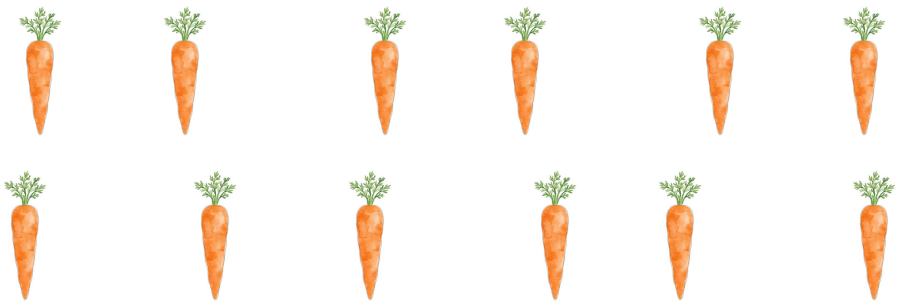

2 bunnies share the carrots. Each bunny gets the same number.

How many carrots does each bunny get? Draw lines to share.

LEVEL 28

Groups Of

Draw the candles. Circle the correct number.

(1) One cake has 3 candles. How many candles do 2 cakes have?

5 6 7

(2) One cake has 3 candles. How many candles do 3 cakes have?

8 9 10

(3) One cake has 3 candles. How many candles do 4 cakes have?

10 12 14

LEVEL 29

Count Wheels

Think it over. Circle the correct number.

(1) One car has 4 wheels. How many wheels do 2 cars have?

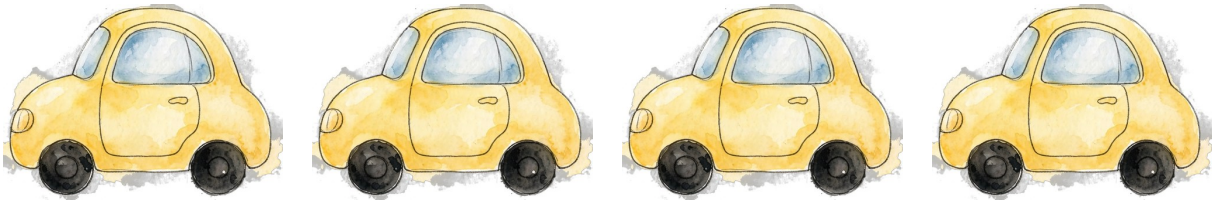

6 8 10

(2) One car has 4 wheels. How many wheels do 3 cars have?

10 12 14

(3) One car has 4 wheels. How many wheels do 4 cars have?

14 16 18

LEVEL 30

Build Chairs

Think it over. Circle the correct number.

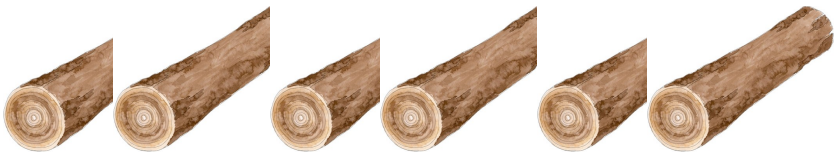

(1) 2 logs make 1 chair. How many chairs can 6 logs make?

=

2 3 4

(2) 2 logs make 1 chair. How many chairs can 10 logs make?

4 5 6
